To whom it may concern,

I am hoping to learn about potential employment opportunities in the Fast Casual industry, particularly with companies whose mission is to make good, healthy, food accessible to everyone. I am a firm believer that when people are educated with a vision of healthy choices, they can better take care ownership of their health, whether that's choosing to cook more for themselves, or to favor healthier take-out options. In this regard, my passion is to improve the confidence of others to intentionally eat healthier and take ownership of their wellness.

With a background in sales, teaching, and catering, I have learned that knowing the „why“ in each pursuit is incredibly important for success- whether in a business transaction, building a relationship to mentor, and providing top quality service. I have taught over 15 students from various backgrounds, sold for two completely different industries, and serviced for events with over 200 guests in high-pressure environments. In each, I've learned to recognize and cater to the specific needs of others. My commitment to quality was determined by my commitment to the purpose of serving others in those respective elements.

I look forward to hearing from you. If there are upcoming openings or internships in the field of marketing, sales, or managing in the health and wellness sector, please feel free to hang on to my resume (attached) and contact me in the future, I can be reached at [smith.alayna.m@gmail.com](mailto:smith.alayna.m@gmail.com) or by phone at 1(801)-953-3070. Thank you!

Sincerely,

Alayna Smith
